EDUCATION

B.S. Electrical & Computer Engineering

Oregon State University — Corvallis, OR
2011 – 2016

Dean's List · IEEE Chapter President

SKILLS

Security

DRM · Cryptography · Secure Boot · Trust-
Zone · SEP

Languages

C/C++17 · Swift · Python

Frameworks

FastAPI · React · Docker · Yocto

Tools

Git · TeamCity · Redis

PROFESSIONAL SUMMARY

Seasoned security engineer (8 yrs) specializing in high-performance DRM and embedded Linux. Led cross-functional teams that shipped secure media services used by hundreds of millions of devices with zero critical incidents across two iOS releases.

PROFESSIONAL EXPERIENCE

Senior Security Software Engineer

Apple Inc. — Cupertino, CA

Dec 2020 – Present

- Designed DRM security architecture for Apple Services, protecting billions of streams across iOS, tvOS & macOS.
- Implemented cryptographic protocols in C++/Swift; integrated Secure Enclave & TrustZone keys.
- Re-wrote token-validation micro-service, cutting latency 45 % and sustaining 50 k req/s.
- Mentored six engineers; instituted threat modeling and fuzzing that kept P1 security incidents at 0.

Senior Software Engineer

Cognex Corp. — Portland, OR

Feb 2019 – Nov 2020

- Produced Yocto Linux images and enabled Secure Boot for ARM vision systems.
- Containerized toolchains, reducing build times 60 %; managed CI with TeamCity + Docker.

Staff Software Engineer

Cognex Corp. — Portland, OR

Feb 2017 – Jan 2019

- Scrum-mastered platform team; validated new ARM hardware with custom diagnostics.
- Championed culture, earning “Minister of Culture” recognition.

Associate Software Engineer

Cognex Corp. — Portland, OR

Jul 2016 – Jan 2017

- Developed autofocus firmware and optimized discrete-I/O drivers on embedded Linux.
